REMARKS

Comments On Statement Of Reasons For Allowance

Applicant acknowledges the Office's statements of Reasons for Allowance and agrees that the claimed subject matter is patentable. However, the Office cites specific language in connection with its Reasons for Allowance. (Notice of Allowance at p. 2). Applicant respectfully submits that the actual claim language of each of the allowed claims, which may or may not comprise the specific language listed by the Office, defines the patentable subject matter of the particular claims. The allowed claim language of each claim stands on its own and should be interpreted in view of the patent specification. The Office's Reasons for Allowance should not be attributed to Applicant as an indication of the basis for Applicant's belief that the claims are patentable. Applicant respectfully asserts that there may be additional reasons for patentability of the claimed subject matter not explicitly stated in the record and Applicants do not waive their rights to such arguments.

Applicant respectfully submits that the above remarks do not constitute a failure of the applicants to engage in reasonable efforts to conclude prosecution.
